EDMONTON BULLETIN

SIXTY-NINTH YEAR EDMONTON, ALBERTA, WEDNESDAY, FEBRUARY 23, 1949 *** Telephone 26121 PRICE 5 CENTS

Picture Editorial on City Transit Fares

HARRIED EDMONTONIANS spent many a weary hour Tuesday night trying to juggle budgets to meet highly-boosted increase in city transit fares. Typical young couple have to cut down somewhere to make room for what they figure a \$40.75 increase in yearly budget. They figure they use an average of six car tickets a day for at least 300 days of the year. Under old structure it cost them \$134.75 yearly for transit. With new fares it will cost them \$175 yearly, so something must suffer, namely them.

AND THEN THEY HAVE to face situations like this. Jammed at corner along Jasper may be forced to wait for two or three trams during rush hour before they can get aboard. Only three of this crowd were able to board this car as others look hopefully for another. Despite increased fares, transit patrons have been offered no increased service and their general attitude toward Transit System in most cases is anything but kind. "And this is what we pay more money for," was general theme of riders today.

Tram Passengers Bitter About Fare Increases

5 DAYS' WORK IN SINGLE DAY

Obtaining what he had expected would take him at least seven days in just one day the proud boss of an Edmonton war veteran. And it was all because of a wise move to seek the help of Bulletin Want Ads.

Tuesday he inserted an ad in the classified pages of the Bulletin to secure acreage within five miles radius of the city. Today he telephoned to say he had obtained quick results and was making arrangements to take over his new property.

If you are looking for property, the best agent is Bulletin Want Ads.

Edmontonians are crying out for an improved transit system.

Up in arms at the increased transport rates, which came into effect Tuesday, they are demanding a more comprehensive service, brighter and cleaner buses, and additional courtesy on the part of operators.

A Bulletin reporter who interviewed passengers travelling on street cars today found not one who supported the new increase.

COST OF LIVING

"It is terrible," said Mrs. Clark Doyle of 2742 104 street. "The hardship is always on the working people. Things are bad enough as it is at the present high cost of living without having to pay 25 cents for three rides."

"Let those who have big Buicks take the people who bought up lots of dollar books last week. They can afford to do so," said a clerk in the civic building.

"What we want in return for our extra money," stated 15-year-old Lyle Jenkins, of 11847 42 street, "is better service."

Said George Robertson, 11851 96a street, who is an old-city contractor:

"It's a hardship on the working class."

167 CLAMS DOWNED IN EIGHT MINUTES

SEATTLE, Feb. 23. — (AP) — Downing 167 starlings, little-neck clams, and several minutes, Joe Gagnon, 26-year-old carpenter, won the second annual international clam eating contest last night.

Gagnon, whose favorite dish is clam spaghetti, kept on eating clams after the final gun "because I like 'em so much."

G. M. (Mac) Reynolds, Vancouver Sun reporter, won an award for grace and finesse. His score was 5 1/2 (half a right) of a clam.

With the aid of a huge tray of condiments, a napkin, a herb and turtleneck sweater, he gave a dignified performance he got: six finger bowls, a napkin ring, a gold footpick and a gunny sack.

Damages of \$31,160 Sought for Injuries

Damages totalling \$31,160.50 are sought in a supreme court statement of claim filed Wednesday by Neil Primrose, city barrister, on behalf of William Huculak, wife Nancy and their two-and-a-half-year old daughter, Victoria.

Red Says U.S. Planning War

MOSCOW, Feb. 23. — (BUP) — The Soviet press was warned on its 31st anniversary today to "maintain permanent combat readiness" because the United States was planning to unleash a new war.

The warning was issued by Marshal N. A. Bulganin, minister of armoured forces, in an order of the day.

The order requested Soviet troops to "unrelentingly maintain a permanent high quality of combat readiness."

THEY'RE FEARFUL

This was necessary, Bulganin said, because, while the Soviet people engage in peaceful economic labor, the ruling circles of the United States are engaged in acts of aggression and of unleashing a new war.

The same type of warning was issued in editorial articles in Moscow's principal newspapers written by leading military men.

"Short is the memory of these aggressors," the Communist party newspaper Pravda warned.

"The lessons of the German and Japanese aggressors, who also tried to dominate the world, haven't taught them anything. The criminal plans of the newly-appeared aggressors claiming to be 'democratic' nations will lead to disastrous failure."

CLAIMS NEW ARMS

Marshal Leonid Gerasimov, acting in the government paper, issued said international tension dictates an intensifying strengthening of the defensive might of the Soviet Union.

Gerasimov stated that the Soviet army possesses "new arms much more advanced than the best of foreign models."

He added that American imperialism, following the example of the German, are "trying to scare nations with blustering lightning blows by means of atom bombs."

Movie Man In Contempt

Glen Voss, Forestburg motion picture house operator, Wednesday lost his second legal battle with General Films Ltd., motion picture distributor.

Mr. Justice C. McLaughlin, in supreme court, found him guilty of contempt of court and fined him \$500 or in the alternative to serve a seven days jail term. The fine was paid.

He was in contempt when he disobeyed an interim injunction ordered by Mr. Justice Hugh Macdonald restraining Voss from showing films of the order Voss showed a film on December 15 last not supplied by the company. This was done two days prior to the supreme court trial in which Mr. Justice Macdonald confirmed the interim injunction and awarded the company damages of \$500.

DREW PEARSON UNDER FIRE

Artillery Language Used By Truman About Critic

WASHINGTON, Feb. 23. — (AP) — Critics of his administration last night required personal and blunt notice from President Truman that no "S.O.B." is going to influence his appointments.

Some 500 persons—members of the Reserve Officers' Association and their wives—heard Truman deliver that startling pronouncement at 8:30 p.m. in a crowded, impromptu talk last night at dinner honoring Maj. Gen. Harry H. Vaughan, his military aide.

The diners were brought to the White House by limousine, parted from his home, neighborhood style and turned to artillery.

"S.O.B." Truman used only the initials, without spelling out the expression for which they stand.

Drew Pearson, radio commentator and columnist, has criticized Vaughan for accepting a post in the White House.

The columnist later had this comment:

"If Mr. Truman is trying to discourage the right of fair comment, then he, too, has another thing coming. The men he has on his staff are his business— even though the taxpayers have to foot the bill."

"No commentator or columnist names any members of my cabinet, or my staff. I name them myself, and when I name them they are moved on, I do the moving—suddenly."

The official transcript of Truman's official talk, released later by the White House, omitted any reference to the term "S.O.B." Truman used only the initials, without spelling out the

Anti-Tito Plot Claimed

BELGRADE, Feb. 23. — (BUP) — The official Tanjug News Agency reported today the testimony in a trial of eight underground leaders had uncovered a plot to overthrow the regime of Marshal Tito.

The agency said Milosh Zrakovitch, "commander" of the forces of the "National Committee of Yugoslavia," testified yesterday that he had ordered prepared a "list of Communists and Activists" so they could be liquidated quickly when the uprising came.

Other testimony was presented as disclosing that the "pro-Fascist" organization was founded in May, 1948, and an uprising was planned to start last September in Kladovo, the wooded mountains of eastern Yugoslavia.

C. Snowside Claims One Life

Floods Threaten Israel And Egypt Sign Tomorrow

From CP and BUP Dispatches

Dangerous landslides and flash floods struck along the mountain slopes of the Pacific Northwest today. One man was killed and five others temporarily buried in a snowslide in the Fraser Canyon, 100 miles east of Vancouver.

Authorities set up a 24-hour alert for possible floods along the ice-jammed Missouri River on the Great Plains. Avalanches, set off by heavy rains, were reported in Oregon, Washington and Montana.

SIX MEN KILLED

First word of the snowslide at North Bend, opposite Boston Bar in Fraser Canyon of British Columbia, indicated it had buried a transport truck and six persons. Later it was reported 16 of the men were injured.

The slide was one of several reported overnight in the rugged canyon, made treacherous by mounting temperatures and warm rains.

Mountain run-offs sent new slides crashing down the Trans-Canada highway between Hope and Boston Bar, B.C., blocking the road to all transportation.

Telephone and telegraph communications were endangered. Crews are fighting to maintain lines through the canyon.

Agreement May Lead to Peace In Holy Land

RHODES, Feb. 23. — (BUP) — Israel and Egypt will sign tomorrow an armistice formally halting their hostilities in Palestine, United Nations officials announced today.

The agreement may lead to a settlement of the long strife in the Holy Land.

An announcement confirming the success of Dr. Ralph Bunche, acting UN mediator, in directing negotiations was made by an Israeli-Egyptian agreement, said the document would be signed at 10:30 a.m. 1:30 a.m. Wednesday.

TEXT TO BE PUBLISHED

The text of the armistice, a compromise proposal submitted by Dr. Bunche to the Israeli and Egyptian delegations, will be made public 30 minutes after the formal signing ceremony in the presence of Dr. Bunche.

The 5,000-word armistice agreement comprised 12 chapters and three annexes. The chapters dealt with the cessation of hostilities, the withdrawal of forces in the various areas of Sinai, Palestine, where Israeli fighting flared sporadically from the expiration of the mandate last May, and the future of Jerusalem.

The annexes consisted of details of various military arrangements, an exchange of letters understood to be an exchange of prisoners.

CHAMPAGNE ON ICE

UN officials put bottles of champagne on ice for the party which Dr. Bunche promised Israel and Egypt delegates once the document was signed. One conference attendee recalled that during one of the joint meetings Dr. Bunche told the delegates he had plenty of champagne on hand to celebrate the signing.

The armistice was the most encouraging development in Palestine since violence erupted when the UN assembly approved a partition plan on Nov. 29, 1947.

Frequent tirades directed on to full scale warfare last May ended Arab Jewish fighting in the state of Israel, where Arab and neighboring Arab states moved against it.

First 'Warm' Weather In Past Week

Little change in Edmonton's weather can be expected tonight or Thursday.

The mercury is not expected to rise much above 40 degrees Thursday will be 39 above, same as today's.

Tuesday the mercury rose to four above, the first time it had passed the zero mark since Feb. 16. Fourteen of February's first 23 days there have had temperatures below zero.

Temperatures remained steady during the night, only dropping to two above.

Conditions were much the same Wednesday night and Tuesday with the exception of southern Alberta, where another chinook squall was reported Tuesday night as high as 47 above at Lethbridge Thursday.

In the Grande Prairie area temperatures also rose slightly, and a total of seven inches of snow was reported Monday night and Tuesday. In the far north the mercury still remained low with readings as low as 40 below.

Trans-continental CN train left Edmonton yesterday night is not expected to reach Edmonton before tonight, about 24 hours late.

Alberta Boys Lose Again

Saskatchewan, Manitoba and Ontario continued unbaten this morning at the Edmonton Curling Club as the Canadian high school curling championships moved into their second day.

British Columbia and the Northwest Territories were virtually eliminated as they suffered their third setback in three tries. Larry Yennema of Blackie, Alta. lost and the victory-lane record.

Jack Thompson's Humboldt rink established Saskatchewan as a strong favorite as they whipped NWT 12-6 in the most uneven encounter.

Ontario Skip Ray Cook came up with a clean two-ended on the last match of his game with Yennema for a 10-9 margin, clinching an upset victory.

British Columbia tasted defeat after being after being down 9-4 after eight ends.

British Columbia tasted defeat at the hands of Manitoba, which came up with triumph number two, 10-8.

Farmers Seeking Food Price Floor

CFA Wants Assurance Of Continued Consumer Demand

OTTAWA, Feb. 23.—(CP)—The Canadian Federation of Agriculture today expressed fears of possible depression and asked the government to consider plans for supporting consumer food demand and for establishing floor prices on agricultural products.

"We feel," the organization said in a brief prepared for the cabinet, "that the economic position in the immediate future functions as in the 'interim trade'." "In the past 35 years," it said, "agriculture has only enjoyed three brief periods of prosperity, during World War One, 1920 to 1929, and since 1944. On balance over the years the scales have tipped in favor of urban people."

"Our present brief period of equality for Canadian agriculture versus the international complications of trade and currencies."

FLOODS IN MONTANA

Rising temperatures have melted snow and started flooding around the western Montana town of Conville, where the situation was called "grave" today.

A flash flood rolled down from the 7,000-foot-high Sapphire mountains late yesterday, inundating Conville and hundreds of acres of surrounding farmland, leaving between one and two feet of icy water.

The flood threatened some 100 families in the town of Conville, which is situated between 40 and 50 degrees above zero. The water in the town's water region of southern Montana.

A landslide near Edmund, Wash., showed one of the Great Northern Railroad passenger train off the tracks. No passengers were aboard but a dining car waiter was injured slightly. ALTA. BEER SALES OVER \$20½ MILLIONS

Albertans drank approximately \$20,569,000 worth of beer during the year ending March 31, 1948, according to a report tabled in the Alberta legislature Tuesday.

Approximately \$8,330,000 was paid to the Dominion government during the fiscal year in duties and taxes.

More than 11,000,000 Imperial gallons of Alberta beer were sold during the 1947-48 period. In addition 70,000 gallons of eastern Canada and British beer were marketed.

Net income to the board during the fiscal period totalled \$8,830,567, the report revealed. An additional \$150,617 was realized from the sale of permits.

Jewel Thief Claims He Is Misunderstood

WHITE PLAINS, N.Y., Feb. 23.—(BUP)—Gerard O'Donnell, 25, the \$10,000-gem thief, said today he thought the public was getting the "wrong idea" about him. He said he didn't turn to crime because he wanted to but because he was "misunderstood."

The Montreal Canadian, who admits his career as a "craftsman" was furthered by his resemblance to movie star Robert Taylor, explained that his father was convicted of embezzlement when he was six years old.

"After that happened," he said, "All the other boys in my home town of St. Catharines, Ontario, weren't allowed to play with my father. I guess I got bitter and by the time I was 15 I was forced to turn to crime."

Dennis continued to undergo questioning by dozens of police officials and detectives who have swarmed here from all parts of the United States and Canada to investigate Jewel's thefts.

Police were trying to decide whether Dennis should be permitted to use the \$1,635 cash which was found in his possession in order to hire a lawyer. He conferred twice yesterday with a local attorney, but did not retain him pending the police decision.

St. Maurice Kelly, of the New Rochelle police, who captured Dennis in Cleveland last week, said the Jewel thief was trying to give the various police officials to agree on consolidating his charges so he will not spend the rest of his life in jail for the dozens of burglaries attributed to him.

"He wants to reclaim part of the 'life' Kelly said, and it's trying to bargain for a sentence of from 20 to 30 years."

Canadian police officers, who questioned Dennis about \$100,000 worth of robberies, said he expressed fear at being returned to Canada because he would face a severe sentence there as a second offender.

Garneau Group Scores Plan For Junior Police

The proposed Edmonton Junior police force has come in for more criticism, this time by Garneau House and School Association at a meeting Tuesday night.

Following closely on the heels of Mayor Ahl's attack on such an organization, the Garneau House and School Association at a meeting Tuesday night.

"Establishment of a junior force, such as one contemplated, would be an admission of defeat by the Edmonton Police department," added Dr. W. Shandor.

"There are other organizations which children may join to learn to be good citizens."

Another reason brought out against a junior police force would be that of teachers in supervising the children in their organization.

Police Probe Shot Complaint

City police were called Tuesday night to investigate what was believed to have been a shot fired through the window of a city home.

Mrs. H. Anderson phoned police at 11:20 p.m. Tuesday and said a shot had been fired from the window of her home at 1092 101 street.

Police rushed to the scene, but could find no evidence that it was shot. They say it may have been a shot or a piece of ice thrown by the fires of a passing automobile.

COAL VALUE SET AT \$41 MILLION

Value of the 8,000,000 tons of coal produced in Alberta in 1948 was \$41,000,000, according to the annual report of the provincial mines branch tabled in the legislature yesterday.

Only 1,500,000 tons of coal were actually used in Alberta itself, the report says, while other provinces bought more than 2,100,000 tons.

The railway companies were the largest consumers of the product, the report continues.

Tire Shortage Over, Is Executive's Opinion

Canadian motorists can look for a "reasonably plentiful" supply of new automobile tires this year, provided they have cars to put them on.

Servicemen Get Homes

First two of 50 special new houses for military personnel were officially opened today to an airman and soldier and their families at North-West Air Command.

Sgt. and Mrs. J. R. Sullivan, and WO1 and Mrs. A. L. G. Clemente were presented with keys to their new homes, part of the special \$50,000 housing program launched last fall for officers and men of NWAC and Western Army Command.

The individual homes contain one, two and three bedrooms; are equipped with stoves, refrigerators and furniture.

With more than a dozen of the new homes now completed, and painted, it is expected that last of the units will be finished by April.

The dwellings were constructed under supervision of NWAC Construction-Engineering branch, following move by the Dominion government to alleviate acute housing conditions at the joint Army-NWAC base here.

Allotment of the units will be by priority and size of family. Air Force officials declared that while there are still more homeless servicemen than accommodations, the new homes will help greatly to relieve present conditions.

HIGH LOAD is being carried north today by a pair of Canadian Pacific Air Lines cargo planes. Shown here is cargo-loader Eric Erickson, flying down part of the engine of a 12,500 pound bulldozer being flown to Nicholson Gold Mines at Goldfields, 450 miles north. Diamond-tipped drill filled two Dakota aircraft for northern journey. "Routine stuff for us," shrugged George Wells, CPA airport agent.

Merchants Face Charge of Fraud

Hearing Continues As Court Learns Of \$100 Payment

Admission was made Wednesday in supreme court by Robert Strong, former clerk in the Department of Veterans' Affairs, that he had received \$100 from Philip Lieberman, city furniture merchant, for approving and passing an account for purchase of furniture through Lieberman's store.

Lieberman and his brother, Louis, are not tried in connection with the fraud. Lieberman's brother Hugh John MacDonald on a charge of false pretences with intent to defraud the Dominion of Canada of \$871.73.

The charge arises out of a transaction between the Lieberman Brothers, trading as Imperial Furniture Co., and a veteran, Desrocher, in which the veteran purchased goods from the company on his DVA credits.

It is alleged by the crown that the transaction was fraudulent as the veteran was to get cash instead of furniture on the deal.

Desrocher told the court he never had any intention of purchasing furniture, that no cash payment had been made by him on the account.

Lieberman paid him \$500 four or five days after the account had been filled out, witness testified.

The hearing is proceeding.

Mill Creek Survey Starts

Residents on Mill Creek located in the Connor's Road "squatters' area" Tuesday required the commissioners to re-zone the creek banks to permit purchase of the property.

Spoken for the delegation also expressed the opinion that "squatters" located in the creek bed area should be moved.

The creek banks were subdivided prior to the area being designated as park land in 1934.

The delegation sought to change from park land to one-family dwelling areas so they can purchase their present dwellings.

Two surveys are now under way by city departments in connection with the city council's directive to the commissioners to report on a solution of the problem posed by this area.

City engineer's department is collecting data on location of structures in the area, and the land department has sent a questionnaire to all residents.

Egg Co-op Shows Big Increase in Finances

Almost half of all Alberta's egg and poultry business is handled through the seven-year-old Alberta Poultry Producers Limited co-operative.

This was revealed in annual reports submitted to 35 representatives of the co-operative meeting today at Moose Lake here.

Organized in 1941 the APPL now has 30,000 farmer members, six branches, four storage plants, and four chick hatcheries.

In 1948 its turnover of egg and poultry products was valued at almost \$10,000,000, and through its various branches about 44 per cent of all Alberta's egg and poultry business was handled, the meeting was told.

Reporting on behalf of the directors, K. W. Kasper, president of the co-operative, said egg handlings in 1948 increased by 21.7 per cent over the previous year.

Market price of eggs paid during the full month of last year was the highest for any period during the past 25 years, he said.

Report of the manager of the Co-op, J. I. Wright, described the past year's operation as "the most successful since the formation of the group."

A financial statement showed an increase of about \$300,000 in the APPL's assets at the end of 1948 compared with the previous year. Net worth increased from \$729,962 in 1947 to \$770,000 in 1948.

The annual meeting will close Thursday.

He became a district agricultural officer in 1942 and later was made supervisor of junior activities.

Borstal Home Is Advocated

By the Staff

A Borstal home to replace an "amazingly ineffective" system of treating Canada's juvenile offenders was urged for the three prairie provinces by deputy Attorney-General Harry J. Wilson at a Garnet meeting Tuesday night.

Citing English Borstal institutions, as an ideal corrective measure, Mr. Wilson declared that young offenders sentenced to prison can be taught useful training during their period of confinement.

Today, when a youth enters prison, his chances of reforming are slight because he has entered what Mr. Wilson termed a "dead-end street."

"To face problems of youth and crime soon, we will have much larger problems on our hands," he warned.

Reading Habits Scored By East Optometrist

When you spend an evening with a good book, whether it's Mother Goose or H. G. Wells, you probably read it with the speed and efficiency normally shown by a grade eight school child.

Canadian adults' poor reading ability was revealed today by Edward J. Fisher, dean of the college of optometry of Ontario, at Toronto.

Here to address about 50 Alberta optometrists at the annual convention and educational congress of the Alberta Optometric Association, Mr. Fisher, in an interview with the Bulletin, told optometry's weapon against slow inefficient reading.

Visual training upon which eye men are laying increasing stress can aid about seven or eight per cent in every 100 to better sight, he said.

ONE IN 100
Much talked of contact lenses only benefit about one in 100 persons suffering eye trouble.

With the pre-requisites of mental maturation, history in physics, mathematics and psychology, graduates of the Ontario optometry college's three year course, will probably use psychology most extensively in giving their patients visual training.

Studies show that slow readers plug along at speeds as low as about 18 words a minute, studying each word individually, he said.

"On the other hand, really fast readers can read a 'dead-end street' in a few minutes."

Visual training can also aid the word hound, Mr. Fisher said.

Inflation At An End Says Machine Builder

Inflation has reached its peak in Canada, and prices should begin to flatten out, in the opinion of J. S. Duncan of Toronto, president of Massey-Harris Limited.

"Business everywhere is holding the line," he said in an interview here Wednesday. "If labor does not insist on another round of wages we should be able to prevent prices from going higher."

He pointed to the remarkable achievement of his own company in keeping prices down. Although wages had increased 8½ and raw materials 90%, prices had only risen 43½, he said.

Although his company had considered locating an implement factory in the West to serve the prairies and the Orient, Mr. Duncan said that was not contemplated at present, because trade conditions in the Orient did not warrant it.

The company has come to the end of its present expansion program, he added.

Massey-Harris has recently opened factories in Manchester, Eng., and Kilmarnock, Scotland, and an addition to their plant in France is contemplated.

Asked if Edmonton would be the probable location of any Western factory, he replied only, "It will be in this province."

Mr. Duncan came to Edmonton to speak during the annual short

BANK CLOSING DOORS AFTER 3 ROBBERIES

VIRGINIA, Ill., Feb. 23.—(AP)—The Virgin state bank, pillaged by hold-up men three times in the last four months, has decided to call it quits.

Directors yesterday called stockholders meeting for March 2 to vote on proposed liquidation. The reason, directors said in a statement, is the "repeated succession of robberies and the evident necessity of continued protection outlays."

Protection outlays have included armed guard who holds the front door at all times. Customers must convince him before they can get in.

The bank was robbed of \$4,000 on Feb. 10, \$2,000 Nov. 13 and \$1,917 Jan. 14.

Virgin is 46 miles west of Chicago. It has a population of 300.

TV To Be Discussed In Federal House

OTTAWA, Feb. 23.—(CP)—Revenue Minister McCall said in a statement today that the government is considering television as a means of raising revenue.

He was answering a question from N. J. M. Lockhart (P.C., Lib.) who wanted to know what the government planned to do about television in view of continuing losses to the federal treasury.

SANTA CLAUS MAY BE SLOW BUT IS SURE

OTTAWA, Feb. 23.—(CP)—It was a little late but the young English girl who wrote to Santa Claus, care of town hall, Vancouver, in the "Hockey" magazine, got her Christmas gift after all.

Mrs. Isabel Woodman, who read in newspapers about the letter from Anita Dewhurst, Ravenshorpe, Dewbury, York, shire, collected gifts from all her friends and shipped them off to the little girl after Christmas.

Mrs. Woodman reported she had received a thank you letter from Anita's mother.

CCF Charges Split In Ranks of Liberals

REGINA, Feb. 23.—(CP)—Resources Minister J. H. Brodeur predicted in the legislature yesterday that opposition leader Walter Tucker will have difficulty keeping his seat with the liberal "party line."

He said Mr. Tucker already differed with agriculture minister Gardiner, "the controlling hand of the liberal party," on rural electrification.

Mr. Tucker had criticized the provincial government for not establishing an adequate electricity system, said Mr. Brodeur. But Mr. Gardiner had said the solution was a windmill and the agriculture minister would not put electricity on his farm from a power line.

"You know we adopted rural electrification on our platform of 1944," interjected Mr. Tucker. "Over the years I have learned to pay little attention to what is in a liberal platform," replied Mr. Brodeur.

Rural electrification is one of the programs which the CCF announced would be speeded up this year.

Mr. Brodeur, speaking in the throne speech debate, devoted his attention to the CCF.

VARIATION ON FISH STORY

LEIGH-ON-SEA, Essex, England, Feb. 23.—(CP)—Because a fish he caught weighed in at eight hours later—just before it was to be fried—Capt. Bill Satchwell had to go without his bath.

His nine-year-old son, Melvyn, saw the fish move and insisted on putting it in the bath. The fish, a 14-inch flounder, arrived after two packets of table salt had been added to the water.

The Satchwells have christened their new pet Winston.

Most of his address replied to criticism levelled against the CCF by opposition members.

FRANCE WILL SPEED WAR LOSS REPAIRS

PARIS, Feb. 23.—(UPI)—The finance committee of the national assembly reported last night that France will speed up reconstruction this year.

The money will be used to repair war damage and to modernize French industry. The report said that about 37 per cent of the necessary funds will be raised by taxation. Thirty-seven per cent will come from Marshall aid and the part funds, 13 per cent from a government bond issue and 13 per cent from miscellaneous sources.

The report paid tribute to American taxpayers for their contribution to French recovery, and recommended that the government explore the possibilities of investing larger sums in underdeveloped French territories.

Saskatchewan Gets \$5 Million From Tax

REGINA, Feb. 23.—(CP)—Liaison from Education Tax during the first nine months of the current fiscal year amounted to \$4,417,233, provincial treasurer C. F. Fine said in the Saskatchewan legislature. Tax receipts came to \$6,190,396 in the 1947-48 fiscal year.

Iron Curtain Envoy Named by Canada

St. Laurent Bitter In
Denunciation Of Reds

OTTAWA, Feb. 23.—(CP)—Prime Minister St. Laurent yesterday bitterly denounced religious persecutions in Communist Europe and assigned to a 40-year-old diplomat the difficult job of getting first-hand information of what is going on behind the Iron Curtain.

He told the commons of the government's "abhorrence" of "racial persecution of religious leaders in countries behind the Iron Curtain."

VIRTUALLY HELPLESS
The government, he said, was virtually helpless to do anything but protest. Peace-loving nations with the countries involved provided against such persecution. His action to forward the observance of the treaty terms required joint action by the signatories, one of which is Soviet Russia.

"Since the U.S.S.R. not only supports but even encourages governments in their hostility to religion it is not likely to give other signatories to the peace treaties much assistance in putting a halt to religious persecution," he said.

Mr. St. Laurent made a statement in reply to a number of questions asking him to give the government's reaction to the canonization of Cardinal Mindszenty of Hungary and the persecution of Protestant leaders in Bulgaria.

He said the Canadian charge d'affaires in Prague, R. M. Mac-

Observer Asked

WASHINGTON, Feb. 23.—(UPI)—The state department has requested Bulgaria to permit an official United States observer at the forthcoming trials of 15 Protestant leaders it was revealed today.

Former Embassy Employee Denounces U.S. Diplomats

MOSCOW, Feb. 23.—(AP)—

American diplomats are the target of a little book—newly published by the Russians—which bears the name of Annabelle Bucar, the Pennsylvania girl who quit her job with the United States Information Service here a year ago.

The book is called "The Truth About American Diplomats" and its 132 pages contain such charges as these:

An "extreme anti-Soviet wing" of the United States State Department is trying to foment war with the Soviet Union.

The United States Information Service is really a set-up for intelligence work.

Ambassador Walter Bedell Smith operated in the black market and ordered Russian employees to sell valuables for him.

Counselor Elbridge Durbrow was an active speculator in the black market.

Large speculators go back to the United States with "bags of thousands of dollars worth" of artworks, illegally exported.

Ambassador Smith, undergoing treatment for a stomach ailment in Washington, declared the charges are "completely without foundation."

Durbrow, now attached to the Army War College in Washington, said "This whole thing is absolutely cockeyed."

Miss Bucar is understood to have been going propaganda work for the Soviet government from time to time in the past. Reports reached Americans in Moscow some months ago that she was travelling around Russian factories, telling the workers they lived better than workers in the United States.

Miss Bucar was an administrative assistant in the information service. She complained in the letter of resignation last year that embassy policy was directed against the Russians. At the same time she disclosed she had been married 13 months before to a Russian singer, Konstantin Lapshin. They now have a baby son.

Trade Booster Is Proposed

LONDON, Feb. 23.—(CP)—A delegation from the Canadian Chamber of Commerce Tuesday took steps to improve trade between Canada and Britain.

The delegation submitted to representatives of the Association of Chambers of Commerce of Great Britain a "special proposition" for bettering trade relations between the two countries.

A spokesman said he could not discuss the plan at present.

The delegation also met Norman Robertson, Canadian High Commissioner in London, to review plans for consultation with government and business leaders.

The delegation plan to return to Canada on Sunday.

Annual Purebred Sale Brings Good Prices

LACOMBE, Feb. 23.—Several good prices were realized at the annual Lacombe sale of purebred bulls and females. In the Angus females class the average price was \$328.75 and the high of \$430.00 was paid by Frank Palechek of Ponoka to Thos. Henderson & Son.

TWO SETS TWINS IN THREE DAYS

WAINWRIGHT, Feb. 23.—Wainwright hospital had somewhat of a record last week when two sets of twins were born. On Sunday, Feb. 12, Mr. and Mrs. W. Whitey of Felsan became the proud parents of twins, a boy and girl, while on Tuesday, Feb. 13 Mr. and Mrs. W. Rattray augmented their family with two little girls.

Several Towns Will Be Voting Next Monday

Elections will be held in several northern Alberta towns next Monday, but all vacancies were filled by acclamation in Vegreville, Ponoka, Peace River, Wainwright, and Lacombe.

PEACE RIVER.—Nomination day in Peace River was just another day as aspirants for seats on the council, school board and hospital board were lacking. As a result Ray Lacey and Charles Briscoe, whose terms had expired on the council received an acclamation while the office of mayor again goes to Dr. F. H. Sutherland, without competition.

On the school board, Carroll G. Fraser and Mrs. Annie R. MacMillan, were re-elected by acclamation. There was no competition against Leonard A. MacArthur on the Hospital Board, his term having expired.

ST. PAUL.—W. J. Lambert, being the only nominee, became mayor by acclamation. Former mayor O. Lacroix did not stand for re-election.

J. W. Beaudry, M.L.A. Alex Tamm, W. F. Connor and J. W. Theroux are running for the two vacancies on the town council.

Three school board seats will be contested by D. A. Malloux, Hector Plant, Henry Charron, George John Edmund Demaree, Eugene Bussarash.

Hospital representative is W. E. Sticks.

WAINWRIGHT.—For the first time in many years of Wainwright history all town offices were filled by acclamation.

James Robinson was returned as mayor, with J. L. Mitchell and L. C. Torg as councillors.

For the Wainwright public school division No. 188, P. E. Patterson, W. E. Rime and Roland Wilkins were the only nominees.

The two vacancies on the Wainwright Separate School Division No. 31, were filled by nominations of Father J. P. Khmann and Godfrey Letue.

STETTLER.—Mayor Herbert Blair and Duncan Gardiner were nominated for the Stettler mayoralty.

Robert Fitz and Cliff Thomas became councilors by acclamation. Public school board nominations were Chris Herring, Gordon Turner and Les Legg.

J. K. Brennan was the only hospital board nominee.

LACOMBE.—Acclamation was given Mayor Thomas Wilkes and F. Oliver Vickerson and Edward W. Burrows were returned to the council, also by acclamation.

Cyril Fox, A. Max Frazell and Jack H. Morrison were nominated to the school board vacancies, then S. Cameron and William Avery were given acclamations to the hospital board.

VERMILION.—William Peter Pike, an original settler here, was elected mayor at Vermilion by acclamation. He succeeds J. W. G. Morrison, K.C. who has held the office for 12 years in succession. Mr. Morrison also had served five years before.

H. J. Payne, George Webb and J. L. Kehoe were nominated for the two vacancies on the council.

GRANDE PRAIRIE.—After serving seven years as councillor, J. O. Wilson will be mayor for the next two years. His was the only nomination.

DISTRICT NEWS IN BRIEF

Elections Slated In Two Divisions

WETASKIWIN, Feb. 23.—There will be elections in two divisions of Municipal district No. 74, Wetaskiwin, on March 18. At the annual meeting of ratepayers held in Eika Hall, Wetaskiwin, Ed Jehn and A. C. Sproule were nominated in division 3 and Henry Young, George Bulman and J. S. Cummings in division 4.

Despite stormy weather extreme cold and drifted roads there were 120 at the meeting to hear the annual meeting of the municipal and kind matters discussed. Charles Michals of Paisley was elected to the chair and kept a vigorous discussion to a minimum.

A report on the Seed Cleaning Association was given by Morris Jerne, chairman of the provisional board. He said that in spite of adverse conditions sufficient interest and sufficient money had been shown and subscribed to make the seed cleaning plant proposal a practical certainty.

The financial statement, copies of which were available for all attending the meeting indicated a healthy condition. Total receipts together with funds on hand at the beginning of the year, were \$86,302.53 and balance on hand at the end of the year was \$20,201.91.

Main items of expenditure included road, machinery depreciation, \$12,056.68; administration, \$1,000.00; protection of persons and property, \$4,884.81; public works, \$109,521.87; public welfare, \$11,000.00; education, \$10,842.26; debt charges, which includes discount on current taxes and other items, \$2,266.26; capital expenditures provided out of current revenue, \$16,644.55. Capital assets are shown at \$134,829.55.

Trochu Carnival Next Wednesday

TROCHU, Feb. 23.—Trochu's 23rd annual carnival will be held Wednesday evening, Feb. 23, in the Memorial arena, featuring Glencoe club figure skaters. A full evening of entertainment has been arranged. In addition to the Glencoe skaters, there will be comic and novelty numbers, and prizes will be given for fancy and comic costumes.

The contestants for carnival queen are Faye Treadwell of Delburne, Edith McCorkle of the Huxley Hustlers, Gloria Burgoyne, and Henrietta Jensen of Trochu. The crowning of the queen will take place at 9 p.m. after which a senior hockey game will be played between Drumheller and Trochu.

Look, Dad, here's how it works

THAT whole new world which comes into view for every youth starting his first job is a fascinating one for a young man who enters the service of The Bank. Suddenly he discovers that banking is a business which does many things for many people. Take the collection service for example. He learns that a Collection Bill is not simply a dry-printed document, but is actually part of an economical and efficient way by which the Bank speeds up payment between buyer and seller in a host of commercial transactions. Young men who start a banking career learn exactly that banking is useful in keeping money at work, and that good banking runs on good personal service. You'll find this point of view makes banking at The Bank of Nova Scotia a pleasure.

WEATHER AND ROADS CAN'T STOP FARMER

CASTOR, Feb. 23.—It takes more than twenty below zero and blocked roads to keep John Wakefield from attending a meeting of the municipal council. He walked ten miles from his farm to Coronation and caught the morning train at 6 a.m. When asked what time he got up he replied he hadn't been to bed.

Mr. Wakefield made the special trip to attend the Court of Revision for assessment appeals which the council was to have held, to protect the high assessment placed against his land. He was disappointed to learn the meeting could not be held and had been postponed for one week.

MARGENE

A FINE TABLE MARGARINE

DELICIOUS-NUTRITIOUS-ECONOMICAL

CANADA PACKERS LIMITED

REDUCED

2c Per Pound

On February 11th, the United States Government lifted restrictions on the Export of Vegetable Oils. Larger quantities of Cottonseed and Peanut Oils can now be obtained.

"Margene" is made from these oils refined to absolute purity. The sweet flavour is secured by mixing the refined oils with pasteurized skimmed milk to which is added a lactic acid culture.

"Margene" is a pure food of fine flavour and high nutritional value. Each pound is fortified with 16,000 units of Vitamin "A".

The new price of "Margene" is 43 cents. This includes sales tax 8%. If the sales tax is removed as it may soon be, the price will be 40 cents per pound.

Since "Margene" was placed on the market more than 2,000 housewives have written us their opinion of it.

Without exception they welcomed it as a useful and economical food:

- for table use
- for baking
- for frying
- for flavouring vegetables

Canada Packers are first to manufacture Margarine in Western Canada. The special equipment required for the production of Margarine is now in operation in our St. Boniface Plant. Canada Packers' Margarine will be sold under the brand name "Margene".

Italian Poverty Is Big Problem

U.S., Communism And Catholic Church Are Actors In Italy

This is the eighth of twelve articles by John Gunther, author of "Inside Europe" and several other books, based on a visit to Europe.—EDITOR.

Italy—Issues, Impressions

The chief problem of Italy is poverty, and a major contribution to this problem is the birth rate; the dominant actors in the Italian arena today are the Catholic Church, the Communist party, the United States of America and fecundity.

A scene comes vividly to my mind. We were driving from Assisi down the golden powdery plain of Umbria, and we passed at dusk before a church, in an up of church, modern, built in the Renaissance manner, with a glaring white facade, by the name of the Santa Maria degli Angeli. I was not particularly interested in the church itself. What did interest me—and several hundred other people who were staring up the steep facade—was an eighteen-foot-high statue of the Virgin on the roof.

On the evening of Feb. 19, 1948, this Virgin moved. It was seen by onlookers to move as if it were bowing slightly. Word spread through the superstitious peasantry of the countryside like a wildfire and thousands came to see the miracle. And every once in a while, usually at dusk, the Virgin was duly seen to move.

MIRACLE AWAITED
Six months later, when we peered and strained our eyes upward, we could not detect any movement in the great statue, which must weigh several tons. But it was easy to appreciate how the perspective of the Virgin high up there on the slanting roof could produce an optical illusion. The striking thing was the congregation of the faithful who waited patiently hour after hour, hoping that the miracle would occur again.

The whole area—did not mean any irreverence by this—has taken on the aspect of a country fair. Harkens sold sandwiches, confectionaries, vendors of chairs and dark glasses, children camped on a merry-go-round, a long series of booths did a flourishing business selling images of the Virgin. Italy is a country where a miracle is taken very seriously. The four said sadly when we departed, "Too bad this is the third time I have come to see, but not yet have I seen her budge."

Note that the Virgin moved just as the official election campaign of this year got under way. The Communists are alert and powerful in this part of Italy. In Assisi itself which has a Communist mayor—Assisi of all places! I saw banners and stickers carved in tied on every other wall of the streets leading to St. Francis' own basilica. And the Communists were very angry at the miracle. They said that it was an electrifying trick worked out by the anti-Communist. They even said that the government has installed an electrical device within the statue, so that it would tip slightly on an impulse sent by radio all the way from the United States!

POLITICAL EFFECT
Certainly the miracle had some local political effect. The election boxes in the church were filled with turn-up Communist party cards. In the first days when the Virgin was particularly mobile.

I tell this story because it illustrates so well the spiritual conflict of modern Italy, the conflict of basic loyalties to all the forces of so many Italians. Belief in miracles, belief in Marx—this is the two great, in no other country is the tension so sharply drawn, an unbreakable acule.

Near Umbria we stayed a few days in a thirteenth-century castle.

Our host, a most amiable and intelligent young man, derives from a family founded in A.D. 1100; he can count his ancestors back for literally twenty-three generations, and the atmosphere of his establishment is positively crystalline with aristocratic tradition. He showed us the church in his fortress-castle. It is empty Sunday mornings. He showed us the school he maintains. The children of his own peasants chant "Viva Stalin!" Politically Italy is fairly stable as of the moment. The Communists made their great bid for power in April and failed. The De Gasperi government has its branches directly in the air. Nevertheless it faces problems of great persistence, depth and magnitude.

HIGH BIRTHRATE
Above all, consider poverty and the birth rate. Italy, the population of which is only 45,000,000, produces a surplus of approximately 400,000 births over deaths a year. This means, each year, that Italy has to support the equivalent of a whole new city the size of Albany or Houston. The country, most experts say, is only capable of supporting about 32,000,000 people at minimum standards; it has to take care of 13,000,000 more than this, with an annual increase of population of 400,000. To boot, the blunt demographic result is an intolerable mass poverty.

This is not to say that rich Italians don't exist. They do exist. Indeed, a visitor's first impression in Rome is apt to be of the acute and painful schism between a minority of the wealthy and a majority of the poor. I have seen shabby children pick up discarded cigarette butts out of a gutter—not to smoke but in order to get a bit of tobacco which they dry and sell—outside shops where luxury suits were priced at \$40 and \$50 a suit.

EXPORT ITALIANS?
When I saw Prime Minister de Gasperi he said with a wry grin that he would gladly give up all American aid under the Marshall plan if he could export 400,000 Italians a year. Of course, he didn't mean this too literally; he was giving rhetorical emphasis to the point of the Italy's over-population. But his central is an extremely ticklish subject; oddly enough it is one on which Catholics and some Italian Communists more or less agree. The church opposes birth control for reasons known to everybody; many Communists oppose it for other reasons too: (1) from a long range nationalist point of view the Communists, just like Mussolini, want Italy to have a big population as possible; (2) the more overworked and poor Italy is the more fertile a field it is for communism.

REFORMS NEEDED
An enormous problem in Italy is the necessity of land reform. There are something like 3,000,000 landless peasants in other words, more than 10 per cent of the total population, a stupendous proportion. Mr. De Gasperi, a decent and humane man, has promised to wrestle with the staggering social and economic implications of this; so far—and it is the chief blot on his record—he has not done so, largely because circumstances have forced him more and more into the arms of the Right wing of his coalition. Landowners don't like to give up land.

Wallace Opposes N. Atlantic Pact

Claims It Would Bankrupt U.S., Possibly Destroy UN

WASHINGTON, Feb. 23.—(BUP)—Henry Wallace said today the proposed North Atlantic Security Pact would bankrupt this country and might destroy United Nations.

The former failure for the European Recovery Plan. He said America's "aggressive posture" against the Soviet Union invite war. Wallace, Progressive Party presidential candidate who failed to get a single electoral vote, aired his opposition to present foreign policy in testimony prepared for the House Foreign Affairs Committee. The committee is winding up hearings on a \$438,000,000 outlay for second-hand Marshall Plan spending.

Wallace said the Marshall Plan is rebuilding Germany while failing to revive western Europe. He said it is not an economic plan but a political tool in the cold war.

This is proved, he said, by the proposed North Atlantic military pact—a "most far-reaching and dangerous step." Whatever its final language, he said, its key feature will be a new lend-lease arms program.

The lend-lease program means that we are going to arm western Europe and establish military bases around the periphery of the Soviet Union, from Norway to Turkey.

A Home or A Criminal

"If she isn't put in a home to care for her, she'll turn into a criminal," I know she will," said the mother of a little nine-year-old daughter who had been found stealing money in order to treat her playmate.

The caseworker considered carefully, then he questioned and carefully learned the whole story. The little girl was twelve old enough to be useful in the home where her father was ill and her mother had to go out to work, or young enough to be the center of attraction as a baby.

The caseworker who represented the Family Welfare Bureau was a trained social worker with a university background. She decided that the little girl must be made to feel that she "belonged" and that she was important to the family as a whole.

Her mother was encouraged and she was taught to do chores well and reliably. With the cooperation of her school teacher she was given small jobs which developed a sense of responsibility and won her the approval of other children.

Gradually the little girl developed in the state where she no longer had to buy anyone's approval, and she gradually became the family came to realize that she was a child who was responsible for making children live in distressing ways.

Such is the work of the Family Welfare Bureau. Problems of family or personal adjustment, their concern. Last year, the Bureau made nearly 5,000 contacts in its sole support is the Community of Edmonton, which body is actively engaged in the support of 27 organizations the year round.

Shipbuilding Aid Hinted

VANCOUVER, Feb. 23.—(CP)—

The Dominion government will preserve shipbuilding on the west coast even if it has to subsidize Mayor Charles Thompson said yesterday after an interview with fisheries minister Mayhew.

The report followed Mr. Mayhew's disclosure that there are between 25,000 and 40,000 unemployed in Vancouver, 7,000 in New Westminster, 2,500 in Victoria and 2,000 more in Nanaimo. The approximate total: 50,000 jobs.

Mr. Mayhew, here in Ottawa to investigate employment, said within a week or 10 days several "pounds of the unemployed will be" at work as stalled construction industry his high gear again.

The prolonged winter has caused a 20 per cent hold up in building activity. Heavy snow in the interior and on Vancouver Island camp operations.

To stimulate construction trades, he has hinted a start-up for the proposed \$20,000,000 port office in Victoria.

Many more is so sensitive that it can detect a two-hundredths of a gram of perfume in a cubic centimetre of air.

FRAYED NERVES were suffered by three-year-old Peter, South African ring-tail monkey, who spent an hour free in a Hamilton, Ont., pet shop. Peter tumbled out of his cage and nightmarish time for Peter followed in which he wandered around among 500 birds, 300 fish, 100 hamsters, rabbits, turtles and a puppy. Young Peter's frustration caused no damage or harm to other pets.

Rich Virginian Slain At Mardi Gras Height

NEW ORLEANS, Feb. 23.—(BUP)—Masked Mardi Gras crowds hampered the search of police today for the slayer of James A. Mahoney, 55, millionaire Bristol, Va., real estate owner.

Mahoney's nude, battered body was found yesterday stretched diagonally across the blond-haired bed in his room at a French quarter hotel. His neck was broken and his head was covered with cuts and bruises apparently made by a pistol butt.

CHECK NIGHT CLUBS Detectives made copies of a passport photo found in Mahoney's wallet and began checking bars and night clubs in the district to find out if the wealthy bachelor had been seen with anyone. But the milling Mardi Gras celebrations made the police work doubly difficult.

Mahoney, owner of nearly a third of all commercial property in New Orleans, was one of Virginia's wealthiest men. Most of his fortune was inherited from his father, the late John Mahoney, a Bristol wholesale druggists dealer.

ON LONG HOLIDAY His body was discovered when the hotel switchboard operator was unable to reuse him. Mahoney was en route to Central America for a several-months vacation and was to have taken off for Yucatan at 8 a.m. yesterday. He arrived here Sunday.

Assistant Orleans parish coroner Dr. Philip Montelepre said Mahoney's neck apparently had been broken with a blow from a heavy instrument.

"He had the hell beaten out of him," Montelepre said.

Fare Increases Were Advised Says N. D. Wilson

CALGARY, Feb. 23.—N. D. Wilson of Toronto, who recently carried out a survey of the Edmonton Transit system, said tonight he had recommended increased fares for the Edmonton system.

Commenting on an editorial appearing on the front page of the Edmonton Bulletin Tuesday, Mr. Wilson said "The facts speak for themselves. Council did not increase fares to the level I recommended."

Mr. Wilson declined to make any further comment on the editorial or the Edmonton Transit System. The editorial charged the Edmonton city commissioners with "gross betrayal of public trust" in foisting uneconomically high transit fares on the public and said the commissioners should resign.

Mr. Wilson declined to disclose what recommendations he had made in his report on the Edmonton Transit System.

The Toronto transit expert arrived in Calgary last night to conduct a survey of Calgary's proposed transportation system.

This year the RED CROSS must have More Money*

More Call for Red Cross

The Red Cross must be prepared for all eventualities. Year after year the demand for Red Cross services grows. Millions of dollars have been spent in flood, fire and other disasters, in aiding the stricken and homeless.

More Outpost Hospitals

Throughout Canada, the Red Cross operates 75 Outpost Hospitals. 2 Crippled Children's Services grow. More are being built and more are needed. Last year over 70,000 patients were served by Outpost Hospitals.

More Blood Donor Services

Province by Province the Red Cross is opening its Free Blood Transfusion Service. Untold lives have been saved by this great organization. But more funds are needed to expand and maintain this humanitarian work.

Red Cross Aids Veterans

Red Cross provides many services for veterans in Hospitals. Other Red Cross activities include Junior Red Cross; Swimming and Water Safety; Nutrition Services; First Aid and Home Nursing; Women's Work Activities etc.

TLC Votes to Bar Reds From Office

AFL Affiliate Moves To Implement Miami Order

OTTAWA, Feb. 23.—(CP)—All affiliated organizations of the Trades and Labor Congress will be advised by the executive council to bar Communists from holding union office.

While not going all-out against Communism, the council said it is a statement last night it was unanimously decided to send circulars to its affiliates to guard against a known Red holding:

1. An elected post as representative or administrative officer of local unions;
2. Position as delegate to Trades and Labor Councils, provincial organizations or conventions of the Congress.
If the new anti-Red doctrine of the TLC is followed, it will mean that Communists will be cleared eventually from all executive positions in the congress.

The decision of the executive council was made public after a closed two-day meeting to consider charges of the American Federation of Labor concerning Communism within union ranks.

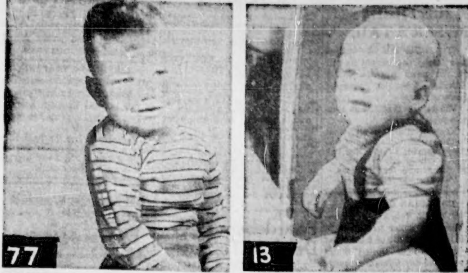

The AFL's executive council told the TLC at a meeting in Miami not to compromise with communists in the Canadian organization. The TLC, although autonomous, has close AFL ties.

The council said last night it realized that such a democratic institution as the TLC, founded 65 years ago, has some weaknesses when confronted with the strategy of Communism.

It will discuss the whole situation at an early date, with all ranking Canadian officers of affiliated international unions having membership in Canada.

Cattleman Dies

CALGARY, Feb. 23.—(CP)—George Denison, 88, one of Canada's outstanding cattlemen and a partner of Panlow and Denison, livestock commission merchants, since 1915, died Tuesday here at his home.

English Biscuit Maker Claims Chunk of Quebec

LONDON, Feb. 23.—(Reuters)—Joseph Salzedo, 63-year-old London biscuit merchant, said yesterday he has instructed his lawyers to file claim to the rugged territory of Mingan, on the north shore of the Gulf of St. Lawrence.

Ship Will Take Pluvius' Pulse

VICTORIA, B.C., Feb. 23.—(AP)—A little of the uncertainty of weather forecasting may be removed shortly by stationing of a Canadian weather ship in the North Pacific.

It was intimated by Fisheries Minister Mayhew here Monday the question of getting more weather reports from the Pacific is under consideration by meteorological authorities in Ottawa.

It is understood that HMCS St. Stephen, now doing weather duty on the North Atlantic, will be sent to Esquimaut to outfit for special work in the North Pacific.

Weather forecasts are handicapped by the lack of information from Pacific storm areas.

B.C. Government Hit About Drug Addicts

VICTORIA, B.C., Feb. 23.—(CP)—The British Columbia government was assailed by an opposition member yesterday for its "arrogant refusal" to recognize its failures over the years on the drug addict problem.

E. E. Winch (CPC—Burraby) declared the problem should fall under jurisdiction of the health and welfare department rather than under the attorney-general's which he said was "psychologically incapable" of handling it.

Nor, he said, was it right for attorney-general Gordon Winter to be expected to handle the drug problem along with his other duties. Prosecution of drug peddlers might remain under Mr. Winter's department but other sides of the question could be better handled elsewhere.

Mr. Winch said he estimated there were 10,000 to 15,000 addicts in the province, with 50,000 more committed yearly by addicts attempting to keep themselves supplied with drugs.

The members also suggested that frequent replacement of the inquiry committee held into deaths of "drunks" in Vancouver jails and at Okalla prison. He was not satisfied, he said, that proper medical care was being given.

P.E.I. Will Favor Margarine Sale

CHARLOTTETOWN, Feb. 23.—(CP)—Prince Edward Island's dairy industry is not opposed to modified sale of margarine in this province where almost 90 per cent of its 50,000 population are farmers.

Legislation permitting the sale of the latter substitute was one of the government measures forecast in the Throne Speech read here Tuesday at the opening of the second session of the island's 24th legislature. Premier J. Walter Jones heads the 24-man Liberal administration in the 30-seat house.

Calgary Builders Ask Wage Boost

CALGARY, Feb. 23.—(CP)—Application for a 15-cent-an-hour wage increase for men engaged in the building industry in Calgary was placed before the Calgary General Contractors Association last night.

The application was made by the joint negotiating committee of the Calgary Building Trades Council. Electricians recently received a 15-cent-an-hour wage boost to raise their minimum salary to \$1.50 an hour. Minimum wages in other building trades range from \$1.25 an hour to \$1.45 an hour.

Salzedo explained: "I inherited the land from Dr. Charles Augustus Boynde, a London dentist, who died penniless two years ago at 85. He inherited it from an English woman because he had rendered many services to the Roman Catholic church."

"He had documents proving he was the owner of the land. He bequeathed it to me in consideration of my endeavour to develop the property."

In Montreal, William Dobell, Canadian representative of Martin's bank in Canada, last night denied Salzedo owns territory of Mingan.

Paralyzed Mother Bears Fine Baby

PORT HURON, Mich., Feb. 23.—(AP)—Mrs. Kenneth Meldrum, 35, paralyzed by polio from the waist down, gave birth to a daughter yesterday in Port Huron hospital.

The iron lung in which she was confined for six weeks is at her bedside for emergency use. Doctors said she and the five-pound, 10-ounce daughter were "doing fine."

Three Convictions

WINNIPEG, Feb. 23.—(CP)—Zohel Ostrov, 35, of Calgary, was convicted on three charges of thefts of coats and furs in court here yesterday and was sentenced to three concurrent six-month jail terms.

E. E. Winch (CPC—Burraby) declared the problem should fall under jurisdiction of the health and welfare department rather than under the attorney-general's which he said was "psychologically incapable" of handling it.

Nor, he said, was it right for attorney-general Gordon Winter to be expected to handle the drug problem along with his other duties. Prosecution of drug peddlers might remain under Mr. Winter's department but other sides of the question could be better handled elsewhere.
